## DAISETSUZAN ENGLISH CAMP Schedule

※ 3 The SDGs learning sessions are where we use English to learn about the sustainable development goals. Over the three days we will incorporate what we learn to camp life.

### ■ About the programme

#### Hiking at Asahidake and Playing in Hokkaido's rivers

Experience the best of Hokkaido's summer. From fishing in the rivers, catching bugs to hiking on Asahidake, Hokkaido's highest peak, the programme is packed full of activities unique to Hokkaido in summer. (If we're lucky we might see the last of the snow at Asahidake even in the middle of summer).

#### Experience horse keeping

The two horses living at Kitoushi are Hokkaido bred Dosanko horses. The campers will join their daily routine, brushing them, cleaning the stables and giving them water.

#### SDGs learning

The SDGs learning sessions are where we use English to learn about the sustainable development goals. Over the three days we will incorporate what we learn to camp life. Note: We will not cover any cancelation costs for flights etc. in the event that the camp is canceled.

Note: We will not cover any cancelation costs for flights etc. in the event that the camp is canceled.
