

Asahidake & Tenninkyō Information

"Nature Letter"

Asahidake

『Asahidake and the autumn colors』

『Japanese Rowan』

『Aleutian Avens』

It is getting cooler now at Asahidake. The Japanese Rowan have passed their autumn peak, but there are still some bright red trees. Asahidake's big star, the Aleutian Avens are deep red and at their peak. The low shrubs and grasses form a sea of reds and yellows around your feet. Enjoy the autumn colors and don't forget a warm jacket.

Alpine Plants in the Sugatami Area

Aleutian Aven seeds

Hokkaido Royal Gentians

Japanese Gentians

Lingonberries

Japanese Rowan Berries

Miquel's wintergreen

Japanese Crowberries

Early Blueberries

Asahidake Onsen

『Autumn colors at the campsite』

『Snakeberries』

There are a number of walking trails around the campsite and Asahidake Onsen area. The colors are also changing at this elevation. The trails are free of charge and worth visiting if you have time. You can also see plants not found higher on the mountain

Tenninkyō

『Hagoromo Waterfall Photo from 9/22』

You see Hagoromo waterfall from the end of the walking trail and before long the leaves will start changing color.

There is a foot spa at the carpark and nearby Shikishima-sou hotel also has a onsen to relax in.

There is a temporary toilet at the carpark.
