

# Nature Letters from Asahidake & Tenninkyō

Informations of Mt. Asahidake area and Tenninkyō provided by Asahidake Nature Keepers every week.

## Sugatami

The whole Trail(1.7km) takes about an hour

The snow is melting while alpine plants are starting to bloom and birds are starting to sing on the trails of Sugatami. Suribachi pond is revealing their face in emerald green under the snow. **The trails are snowy and muddy.** We are offering Rain boots(300 ¥/pair) to prevent from your shoes getting wet. There are many plants living under the snow, so **please walk only on the trail!**

Suribachi pond and Mt. Asahidake

Pine grosbeak (♀)

White wagtail

## Alpine plants in Sugatami

Alpine azalea

Kibanasyakunage  
(*Rhododendron aureum*)

Komebatsugazakura  
(*Arctericia nana*)

## We recommend you to bring :

※Rainwear is also recommended because the weather is unstable on the mountains.

Sunglasses

Hat

Trekking poles

Water

Jackets

Rain Boots

## Asahidake Onsen

Trails • Alpine plant botanical garden • Onsen • Campsite

Wasabi swamp

Marsh Marigolds

Asian skunk cabbages and Marsh Marigolds are blooming around the trails of Yukomanbetsu Swamp and Wasabi swamp. The snow melts rather earlier this year. Rain boots are recommended.

Higashikawa protection society for Daisetsuzan national park 「Nature Protection Project」 Organizer/ Publisher: NPO Daisetsuzan Nature School

## Tenninkyō

Hagoromo waterfall • Columnar joint • Foot bath • Onsen

You may enjoy the trail in the woods with wild flowers . Hagoromo waterfall shows her face in only 15 minutes walking.

You can feel the waterfall's power stronger than other season since the snow is melting. Foot bath in the parking lot and Shikishimasou's onsen are also recommended.

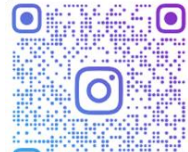

Columnar joint
