

Nature Letters from Asahidake & Tenninkyō

Informations of Mt. Asahidake area and Tenninkyō provided by Asahidake Nature Keepers every week.

Sugatami

The whole Trail(1.7km) takes about an hour

Because snow melted 10 days earlier than usual, flowers are blooming a week to 10 days earlier this year. Also, perhaps because they were exposed to low temperatures after the snow melted, the volume of flowers seems to be slightly smaller. However, the flowers at Sugatami Pond Garden are constantly changing, and the liveliness remains the same. From now on, the Ezoisotsutsuji will be in full bloom. Please come to Mt Asahidake to enjoy refreshing breezes and stunning views.
