

Nature Letters from Asahidake & Tenninkyō

Informations of Mt. Asahidake area and Tenninkyō provided by Asahidake Nature Keepers every week.

Sugatami

The whole Trail(1.7km) takes about an hour

The season is gradually changing from summer to autumn in the Sugatami area. Even when the town is very hot, it is much cooler and comfortable here and rare to be more than 20 degrees. Here it is less crowded and easier to walk compared with July. We see many families coming together to stroll through the beautiful scenery and enjoy taking pictures. We are looking forward to you coming.
