

Sugatami

The whole Trail(1.7km) takes about an hour

On September 21, Mt Asahidake's summit area was completely white with frost. The autumn leaves in the Sugatami area are at the final stage of the season, and it's getting chilly. The temperature is around 5 degrees Celsius even during the daytime. Please wear warm clothing when going out for a walk. Hikers should be careful of hypothermia as the temperature will drop even further.
